

TECHNICAL SKILLS

Frontend Tech-: HTML, CSS, JavaScript, AJAX, JSON, Performance Optimization, API nologies

Frameworks : React.js, Tailwind CSS

Libraries : Redux Toolkit, React Router

Databases : Firebase

Tools/Platforms: Visual Studio Code, Git, Github, Vercel

EXPERIENCE

Open Source ReactJS Developer

Curious Ecosystem

Jan 2024 – Present

Remote

- As an Open-Source **ReactJS Developer** and **Frontend Web Developer** at Curious Ecosystem, I directed the development of the **resume-builder project**, overseeing a team of 5 developers, and implementing structured data storage in **Redux**, resulting in a **100% improvement in data management efficiency** and overall **performance**.
- Leveraging my **design** and **React** expertise, I made **significant contributions** to the project's success.
- In addition to my **technical contributions**, I assumed **leadership** responsibilities by guiding and mentoring **team members**.
- By fostering a **collaborative environment** and **aligning our efforts** with organizational goals, we successfully delivered the project **on time**, meeting stakeholder expectations.
- As a result of my leadership and technical prowess, I garnered **recognition for my contributions** to the project.

PROJECTS

Chat-Verse :

React, Firebase, CSS

[Source Code](#)

- Developed with **React, Firebase, and Firestore**, the Chat-Verse project offers **real-time chat functionality** for **instant communication**.
- With features such as **privacy** settings, **message deletion**, **chat deletion** and **media/file sharing** capabilities, the platform ensures **secure and seamless communication**.
- Performance optimization** techniques, including **image compression** and **error handling**, contribute to a **smooth user experience** across all devices

Portfolio Website:

React, React Router, Tailwind CSS, Framer Motion, CSS Animations

[Source Code](#)

- I designed and constructed a dynamic portfolio website showcasing my projects and work.
- Utilizing **small animations** and **visually appealing** design elements, I aimed to create an **engaging experience** for visitors.
- The website incorporates **responsive design** principles, ensuring seamless access across various devices.

Resume Builder:

React, React Router, Tailwind CSS, Redux Toolkit

[Source Code](#)

- In this project, I crafted a user-friendly application enabling users to create **professional resumes** from **scratch**.
- By implementing multiple **customizable templates** and **seamless data storage** using **Redux Toolkit**, I provided users with extensive customization options.
- The integration of **download functionality** allows users to **generate and download resumes in various formats**, enhancing usability and convenience.
- Note: "Add your Resume" functionality for the Resume Builder Project is currently in progress.
